PART #2: ITEMS AWARDED

THIS CONTRACT IS A PREQUALIFICATION FOR THE PURCHASE OF PORTABLE TRAFFIC SIGNALS IN THE EVENT OF EMERGENCY SITUATIONS.

- 3.1 To provide Portable Traffic Signals to Miami-Dade County during an Emergency Situation to various locations located throughout the boundaries of Miami-Dade County.
- 3.2 The Portable Traffic Control Signal units will be utilized during an emergency situation such as disaster, power failure, or other temporary emergency requirements.
- 3.3 The Portable Traffic Control Signal units must meet the physical and operational requirements of conventional traffic control signals.
- 3.4 The Portable Traffic Signal units shall be powered by engine driven generator, solar, or stored battery charge system.
- 3.5 The Portable Traffic Signal units and electronic controls shall be completely inaccessible to unauthorized access and protected by a lockable mechanism.

3.6 The Portable Traffic Signal System shall be equipped with signal heads sufficient to control four traffic phases (typical intersection). Also, the unit shall be capable of adding a separate turn phase function as an option.

3.7 Various other traffic related items.
